10 things you missed at the Dubai Design Week 2017

Sonal Ved | November 23, 2017

Here's a roundup of the most striking things we saw

9/10

The BETTair House

Merging the concepts of sustainability and design, Superfuturedesign, a future-focused architecture firm came up with a self-sustaining home. It was made using an environmentally-friendly material and was installed as a home ecosystem that had ample natural vegetation. Add to that air-purifying light fixtures by Buzzi & Buzzi.

BettAir House: The In-House-Garden Metaphor
