BUZZI & BUZZI DOT

Dot, available with 1, 3 or 5 light sources, is a lamp containing an innovative parabola which grants an antireflection effect and LED sources of high illumination intensity. It is an indoor luminaire made of AirCoral® and installable on ceilings which takes maximum advantage from technological research, guaranteeing the most complete customization of the form and inclination of the internal parabola. The product is available with different lens which allow the adaptation to any types of architectonic projects and necessities.
